

# STOP INVASIVE SPECIES IN YOUR TRACKS.

Photo © Leah Bauer,  
USDA Forest Service Northern Research Station, Bugwood

Emerald ash borer kills trees and forests; take action to prevent spreading it.

- **REMOVE** plants, insects & mud from boots, gear and pets.
- **CHECK** your tires on bikes and ATVs and remove any plant parts before moving to a new area.
- **CLEAN** your gear before entering & leaving the recreation site.
- **STAY** on designated roads & trails.
- **BURN** locally sourced, pest-free firewood.
- **LEARN** to identify common invasive species and **REPORT** them!

**STOP INVASIVE SPECIES  
IN YOUR TRACKS.**
