

# 32ND PNWER ANNUAL SUMMIT

JULY 16-20, 2023 | BOISE, IDAHO

## Transboundary Feral Swine Summit

Boise Center  
Ballroom Y

July 18-19, 2023

### AGENDA

Subject matter expert presentations and moderated panel discussions will explore

- Economic Impacts and Risk
- Mitigation and Response
- Action Management Planning

Technical Assistance

- Trapping
- Drones and Thermal Imaging
- Dog Detection
- Surveillance & eDNA

The sessions are a partnership with the Transboundary Feral Swine; the PNWER Invasive Species; the Cross-Border Livestock Health Working Groups and USDA APHIS. The sessions will explore the challenges and risks to the region. Feral Swine [wild pigs] can transmit dangerous diseases to humans and livestock, as well as damage the economy and environment in both the U.S. and Canada. The Transboundary Feral Swine and Technical Assistance sessions will showcase the challenges and important work the region is doing to respond as well as mitigate the risk from Wild Pigs.

The Pacific NorthWest Economic Region's Annual Summit July 16-20 will bring together over 500 key government and business leaders from the U.S. and Canada to address the key policy issues facing the region.
