

HELP US PROTECT OUR ECOSYSTEMS

Don't let it loose!

**Releasing any plant
or animal can result in
damage to our landscapes
and waterways.**

Introducing pets and aquarium contents into
the wild can:

- Spread disease
- Cause a loss of native species
- Damage outdoor spaces
- Reduce recreational opportunities

RED-EARED SLIDER TURTLE

DOMESTIC RABBIT

Be a responsible **PET OWNER**

Robert T. Dillon Jr., College of Charleston, Bugwood.org

CHINESE MYSTERY SNAIL

GOLDFISH

PIGS

- Never release pets or aquarium contents into the wild
- Keep outdoor pets safely enclosed
- Find safe, humane alternatives to releasing plants and animals at:
